

## GIVING BACK

Treatibles has a long history of supporting rescues and the animals they care for.

We believe that all dogs, cats and horses deserve love, compassion, care and a forever home. Each day, the tireless efforts of rescues and shelters help make this a reality for a growing number of animals. Unfortunately, some cats, dogs and horses are deemed unadoptable due to fear, anxiety or perceived aggression. These misunderstood pets often thrive when their issues are addressed.

Treatibles is proud to be part of this transformation. We partner with rescues and shelters across the United States to help bring calm, balance and ease to dogs and cats in their care.

### **Rescue Partners**

Treatibles offers a deep discount on all products for rescues and shelters. We are proud to work with dozens of organizations nationwide through our [Rescue Partner program](#) and donate product or funds in times of crisis.

### **Rescue Spotlight**

Each quarter, we feature a rescue partner's story on [Treatibles.com](#). In addition to showcasing their mission, each rescue highlights success stories as well as pets in need of a forever home. Treatibles makes a monetary donation to the rescue and encourages our customers to donate, as well.

### **Team Treatibles in Action**

Our passion for helping animals thrive runs deep. That is why all members of our staff spend time volunteering at local shelters.

### **Tater Tot Project**

Tater Tot is a rescue Pit Bull from Villalobos Rescue Center (VRC) in New Orleans and the brand ambassador featured on Tater Tot's Sweet Potato Soft Chewables. You may recognize Tater Tot and the VRC from the television show, Pit Bulls and Parolees.

We heard Tater Tot's story and wanted to help. That's why we partnered with the VRC to develop a chewable in his honor. \$1 from every regular size container and 25 cents from every intro pack size sold goes to directly toward veterinary expenses at Villalobos.

To read more about Tater Tot and our partnership, please visit the [Tater Tot's Story page](#) on Treatibles.com. We are thrilled to have Tater Tot and VRC as part of the Treatibles family.
