Treatibles Fact Sheet/2

Treatibles third party lab tests from raw ingredients to the final product to ensure consistency and potency, and to rule out heavy metals, pesticides and biocontaminants. Lab results are available on [Treatibles.com](https://www.treatibles.com).

Our products are available at independent, regional and national chain pet food stores, feed stores, groomers and veterinary in-clinic stores from coast to coast, as well as online at [Treatibles.com](https://www.treatibles.com) and many authorized online retailers. Internationally, Treatibles is available in Japan. Please visit [Treatibles.jp](https://www.treatibles.jp).

Mission:

To promote Harmony for the whole family® through the happiness and health of each pet with our revolutionary Organic Full Spectrum Hemp CBD products.

Company History:

In 2008 Treatibles Founder and CEO, Julianna Carella established Auntie Dolores, one of the first five medical cannabis brands in California. Soon after, clients began asking if they could give Auntie Dolores products to their ailing pets. In 2013 Treatibles was born, blazing a trail as the pioneer in creating CBD products for pets. With a passion to help pets thrive, Julianna Carella founded both companies on the values of compassionate care, quality ingredients, reliable information and integrity. These principles continue to guide the corporate culture.
